

NOSTALGIC

# Climax

Imrozia is delighted to present its newest collection Apogée Nostalgique which highlights the amalgamation of the old and the new. This retrospective insight into the past,

present and future of our culture is interwoven into our embroidery palette and motifs. With each piece of master craftsmanship, we have fused nostalgic apex into our styles, cuts, and colours.

As always, Imrozia invites you to have fun while presenting yourself in a captivating new light of esteem and playfulness. Our mission of empowering women through fashion is furthered as this collection is embedded with moments of sheer joy, nostalgia and bliss.

**Apogée Nostalgique** is a statement that takes on the artistic values and cues from the long-gone eras of our fashion industry and blends it into the chic, modern and trendy fashion of the now and the happening. From pastel hues of the 60s, to the bold psychedelic patterns of the 70s, and the colour pops of the 80s; we have combined these aesthetics into the current couture which speaks to the women of the time. The creative minds of Imrozia present their medley of peak moments from the past and the present, in every piece of the collection. This collection hopes to entice you with its beautiful palette, tantalizing motifs and vivid cuts. It is an ecstatic trip
