It is always better to have your own design, especially for a woman's wardrobe. It is not just about looking good, it is about feeling good. It is about expressing your personality and making a statement. It is about being confident and comfortable in your own skin. It is about being true to yourself and your own style. It is about being a woman who is not afraid to stand out. It is about being a woman who is not afraid to be different. It is about being a woman who is not afraid to be herself.

To keep up with the latest fashions, people subscribe to fashion magazines, keep a keen eye on what has appeared in shops, and what has been there for a long time, and go to fashion shows to see what the designers are putting on the catwalk this season, and somehow what will make it in to the shops. For the extremely wealthy, they might have their own personal relationship with a designer who will keep them well ahead of the crowd trends. Besides, many people wanting to know what the new fashion lines are going to be will watch what celebrities are wearing. Being ahead of fashion is, for many, the ultimate achievement, although being too ahead of the fashion is just as bad as being behind it! If you are too far ahead people will think what you are wearing is not in fashion, because it isn't yet.
