# My Story.

.....  
:: MY STORY OF FASHION ::  
fashion to me is all about speaking your heart to this world; the every little thing you express, the every little dress that you wear, the every little expression that you wear on your beautiful face; all your gestures; the way your eyes travel; the way you carry your attire; the way you look at people into their eyes;

that is all and so on is  
FASHION
