# The new Fashion

DESIGN 51017

In the 21st century the style of the fashion industry through the world change than in the past and continue, not only the way people dress, but also the way they think. The fashion industry is a very dynamic and fast-moving industry. In today's world, fashion is not just a means of clothing for the body, it is the symbol of the personality. The fashion industry will change in the future and they will be different from any other industry in the world.

TEXTILE DEAL

In the 21st century, the style trends of the fashion industry have changed more than they ever have and continue to evolve. The new people designers also design for the "smart dress" market, fashion and people's natural attitudes, in the 19th century, when they were just a woman of clothing, for a man, it is the image of their personality and beliefs, a woman's dress will show off the power she has in her society. For the coming years, we will see a new style of dress that is more like a woman's dress in the world.

In the 21st century the style trends of the fashion industry dominate the world more than they ever did and control, not only the way people dress but also trends in home ware design, make up fashion and people's overall attitude. In the 40s flapper power did not only mean flares and tucks, it meant the whole attitude of a generation, and this is even more prominent today. Nowadays, fashion is bold and daring, and this reflects a younger generation that is not afraid to say what they think, or wear what they want. Fashion is not just a means of clothing your body, it is the essence of your personality and beliefs, and designers are well aware of the power they hold. Innovation, fresh trends and colour for the coming seasons are more well anticipated than any other revelation in the world.
