A beautiful woman when you look at her face and think of her soul. When you look at her eyes and feel her love for you. When you feel her attractiveness because of her genuineness and other virtues.

Everything about her is mesmerizing. Her smile and laugh can stop you dead in your tracks, and her eyes seem to light up the world when they smile. Everything about her redefines perfect. She has the ability to make anyone forget how to breathe. She may cause stomach sickness, headaches, inability to think, weakness of joints/bones, making it hard to stand up straight near her.

Beautiful is a woman who has a distinctive personality, one who can laugh at anything, including themselves, and one who is especially kind and caring to others. She is a woman, who above all else, knows the value of having fun, and not taking life too seriously. She is a woman that you can trust and count on to brighten your day. She is a woman who can inexplicably make you feel really good just by being around her, and yet brings such great sadness when she is gone.

Beauty is something that few understand and fewer possess. You can do more than see it, it is felt within you. It is the expression of your soul in the light. When you see something you find truly beautiful it is like the feeling of being in love, inexplicable, strong and pure.

There is talk among the merchants in town as you sail in. On distant shores, in a new land, you bring a whole new horizon of beauty. Many fall in love with you instantly.

Something that the human race has forgotten. Beautiful is often used synonymously with hot or sexy. This is not the case. Nobody fat and unhumanly large breast does not make a girl beautiful. Beauty is a pure, non-sexual thing. It comes from the right combination of personality, confidence, and (of course) physical attraction.
