FOCUS ON THE WOMAN

As a lot of people think the past was the time of conservatism and dogmatism and the foundation of the modern fashion industry is very recent. The liberation of women has changed everything, the creation of crop-tops, showing legs, showing midriff, showing faces, hands, feet, neck, everything and every part of the body is now visible. It is not a liberating result of the industry, however and even the variety of styles is not seen in their former styles and most of the times.
