*artistically designe*

*In the 21st century the elite brands of the fashion industry dominate the world more than they ever did, and control not only the way people dress but also trends in home ware design, interior fashion and people's overall attitudes. For the 19th century did not only mean flowers and vines, it mirrored the whole attitude of a generation, and this is our new generation today.*

*Therefore, fashion is held and during, and this reflects a negative generation that is not afraid to say what they think, or wear what they want. Fashion is not just a matter of clothing your body, it is the essence of your personality and beliefs, and designers are well aware of the power they hold. Designers, producers and designers for the evening season are more fully anticipated than any other wardrobe in the world.*
