CREATION

Printed saree. Wear care through evolution for decades. To commence, wash your new wearing printed saree with water. Take out all Parchan from the saree. After it is dried, heat the traditional mustard oil and add some sand to it. Pour this mixture onto the saree and let it sit for 10 minutes. It is then washed again. This is a unique formula which has evolved well over the years. Country women, Village girls have who make sarees, and sarees are safer to explore more and more preferable in the market.
