PICASSO DE WEAVING

Simplicity never gives an outfit style. A saree always makes you stand out in the crowd. Saree means simplicity and sophistication. The right Saree fits every curve and contour of the body, no matter what the body type is.

ICASSO

de weaving

A woman wearing a saree for sure is a wonder
woman. If she can do chores without raising her
pleats, and wrap six yards of fabric, then you know
what she is capable of.

Craftsmanship means more than technical virtuosity. It is not only a profound understanding of materials, and of the tools with which materials are fashioned, but, most importantly, it involves a genuine pride which drives an individual to craft and weave as well as can be done, beyond what is required, beyond economic considerations of reward. An excellent example of such craftsmanship is Saris weaved by us.
