“Kasturi is a traditional Indian perfume, which has been used for centuries. It is known for its rich, floral fragrance and its ability to enhance one's natural beauty. The name ‘Kasturi’ is derived from the Sanskrit word ‘Kasturi’, which means musk or ambergris. This fragrance is a blend of various essential oils, including sandalwood, rose, and patchouli, which are known for their therapeutic properties and their ability to calm the mind and body. The fragrance is perfect for use during special occasions, such as weddings, or for everyday use to enhance one's natural beauty.”
