when a person is in fashion all they do is  
right. Just listen to your  
to make it your style. beauty is also  
admitted to the taste of time so beauty is  
essence that changes with time

When a person is so happy all  
they can do is just let it be. It's not  
like it's a style. Beauty is not  
something that is in the eye of the beholder  
it's something that changes with time.
